I Studying a Computer Science Degree in Air University in 2020. As an enthusiast of learning new things I started my coding journey by making projects. I have a strong grip in logic building and analytical thinking. My current CGPA is 3.31 and in third semester I also acquired the merit base scholarship in air university. In my 3 years coding journey these are one of my projects:

- ❖ Flight Reservation System with OOP concepts
- ❖ Library management system with Django.
- ❖ Make Ludo with C++ and multithreading.
- ❖ Clone GitHub pages, Todo list, calculator with css html JavaScript
- ❖ Todo list, cart system in react, tic tac toe game with react.
- ❖ Python space hunter game with Pyame.

Experience

SEPTEMBER 2022 – OCTOBER 2022
